

Friction Fit A-Frame Box Instructions

- 1.) Connect the two cross bar assemblies using the 1" and 3/4" PVC pipe. Gluing is optional.
- 2.) Attach to the A-frame by hooking the rubber tips on each side of the A-frame .
- 3.) If you wish to use the box on the ground you can hold it in the extended position by rolling the two "O" rings to the desired location.
