

Clean Run[®]

THE MAGAZINE FOR DOG AGILITY ENTHUSIASTS

APRIL 08 VOLUME 14 NUMBER 4

© SUSAN SALO, DANE LEWIS, WATT ALLISON

Starting Your Pup Off on the "Right" Foot for Jumping

You can teach very young dogs the mechanical skills of jumping, without any height, so that they fully understand the job ahead of them. By Susan Salo

The Art of Electronic Timing

Most of us are used to electronic timing, but do we know what the proper placement is for the "eyes" for each type of obstacle that can be used at the start and finish of the course? By Mark Kuznitz

Jump Down Syndrome

Traumatic fragmented medial coronoid process is a condition in the elbow that appears to be common in performance dogs. By Sherman O. Canapp Jr., DVM, MS, DACVS and Donald Hulse, DVM, DACVS

Features

5 Editorializing: Dog Friends Are the Best Friends

Many people in agility form lasting friendships through the sport. By Kristine Gunter

18 Pre-Agility Skills: Laying the Foundation, Part 2

It's time to teach your dog some groundwork and basic jumping skills. By Mandy Book and Cheryl S. Smith

38 Foundation Fundamentals: Teaching Agility Cues

Learn how to teach the dog to respond to cues that we'll ultimately use to tell him to move ahead to an obstacle. By Mary Ellen Barry

50 Classes Gone Wild

Teaching an agility class can be a wonderful experience, but difficult students can pose challenges. By Diana M. Barber, PhD

53 Cece's Gym Exercise of the Month: Powering Up the Rear Legs

Increasing your dog's hind limb strength helps generate speed and power for jumping, turning, and running. It also helps prevent injuries. By Debbie Gross Saunders, MSPT, OCS, CCRP

54 Spy Kids: Rules for Access and Off-leash Control

Agility training comes pretty easily once young dogs learn to stay with us off-leash and to delay gratification. By Nancy Gyes

59 When Pigs Fly: How to Use Your Dog's Natural Behaviors to Train Him

Learn how to use the ICE principles to transfer your dog's passion for sniffing or chasing squirrels to running an agility course. By Jane Killion

65 Shelter Champs: Reno

While many competitors dream of earning titles, animal shelters continue to house dogs that were relinquished because they are too energetic, too smart, or too busy for most pet homes. Many of these dogs are great agility prospects. This month meet Reno. By Lisa Barrett

73 Power Paws Patterns: Number Four

Number four is full of front-cross, threadle, and serpentine drills. By Nancy Gyes

80 Conquering Ring Nerves: Want to Remember the Course? Focus!

Anxiety and nerves interfere with your ability to remember agility courses. Learn some exercises that will help you think clearly and focus better so that you can stay on course. By Diane Peters Mayer

Columns

6 **Tip of the Month** By Rick Parry

7 **Everything You Always Wanted to Know About Agility...**

8 **Backyard Dogs** By Mary Ellen Barry

42 **Skill of the Month** By Karen Holik

Cover

23 Handling Your Dog in Awesome Style: Direction Cues

This month we begin a series on the specifics of the handling system used and taught at Awesome Paws. The first article focuses on direction cues. By Linda Mecklenburg

30 Trainer's Forum

Teaching your dog to perform obstacles independently at a distance is just one skill that our trainers recommend for those who are often running behind their dogs. By Brenna Fender

34 Tent Ownership Dos and Don'ts

Most agility competitors rely on tents to protect them from the elements at trials. Learn how to take care of your home away from home. By Rena Barrett

45 Say Yes to the Learning Curve: Starting as a Team, Part 1

The outcome of any agility run is often determined in the first few seconds when you and your dog enter the ring, long before the dog ever takes his first obstacle. Entering the ring with confidence is a rehearsed skill. By Susan Garrett
