On the Cover

- 6 For the Love of the Teeter: Part 1, Lack of Love**
If your dog doesn't feel the love for the teeter, this article is for you! Whether he has an obvious fear or just a little discomfort, these training games can help you improve your dog's seesaw performance and then maintain it. This work can also be incorporated into training a new dog on the obstacle. Sandy Rogers
- 22 Don't Be a Cow!**
Does your dog sometimes disconnect from you on course and bark hysterically? Dogs don't bark to annoy you. They bark with one purpose: to communicate with others. So, what is your barking dog trying to tell you on the agility course? By Terrie Rolph
- 24 Basic Handling Skills, Part 2: The Front Cross**
The front cross is a versatile handling move and one of the three basic handling skills needed to navigate our dog around a course. By Simone "Tig" Stephenson
- 32 Strengthening Exercises for Preventing Stress-Induced Injuries**
Agility is demanding on the canine body, but the likelihood of an agility dog incurring a soft tissue injury can be significantly reduced by building and maintaining strength in three main areas: the core, front legs (shoulders), and hind legs. By Dr. Tiiu Toijala, CCRT and Dr. Debra Canapp

Features

- 4 Tip of the Month** – Labeling your dog limits your ability to solve training problems, so "unlabel" him. By Terrie Rolph
- 5 Editorializing: April Showers Bring May... Cows?** – What do we have for you in this month's issue? By Brenna Fender

- 13 Backyard Dogs** – Find it! This month's setup offers lots of fun challenges in the form of handlers indicating the dog's best path to targets/obstacles that are not immediately visually salient. By Dudley Shumate
- 15 Making You the Focus of Your Puppy's Attention: Management and Trials** – By managing your training sessions, life around the house, and your pup's exposure to distractions, navigating your puppy journey can be made much easier, and you will build positive experiences. By Stacy Winkler
- 18 Everyday Distance: Teaching Discriminations** – This month we'll discuss teaching obstacle discrimination starting with the foundation steps and progressing to advanced work with distance. By Amanda Nelson
- 30 The 25% Solution: Sequences for Small Spaces** – This month's exercises provide opportunities for practicing front crosses on the flat to a backside as well as honing your Gamblers/FAST distance skills. By John Reid
- 37 Power Paws Drills: Alternatives** – You can do up to thirty different exercises on this 50 x 60 foot setup and have days of fun training. By Nancy Gyes
- 42 Change Your Brain, Change Your Game: Part 3** – Mental games (the negative kind) take aim at sabotaging your success. We continue looking at what mindset is, its impact on performance, methods to make your mindset one of progress and mastery, and mental management preparation plans to keep you on target. By Diane Patterson
- 45 Beginning Sequencing with the Seesaw** – Once your training on individual obstacles is done, it's time to start sequencing! Here we'll discuss important consideration for introducing the seesaw in sequences as well as provide many sequences to try on your own. By Jo Sermon
