

## DIRECTIONS ATTACHING JUMP CUP STRIPS

**Step 1:** Measure 27" from the ground up and draw a line on your jump.

**Step 2:** Snap the Jump Cup Strip with the 4" cup at the bottom of the jump stanchion.

**Step 3:** Slide the Jump Cup Strip up or down to match the top of the strip to the 27" line you drew in Step 1.

**Step 4:** (optional) Using the supplied screws and a power screwdriver, permanently attach the strip to your jump (Clip and Go recommends the use of the screws to avoid up or down movements of jump cups).

**Step 5:** Repeat on other side.
