

# Jump Start Practice Jump Assembly Instructions

Step 1: Using cutters separate Jump Base Halves

Step 2: Snap Base Halves together making sure all 4 snaps are securely attached

Step 3: Insert the End Caps into each of the 36" long Uprights

Step 4: Insert the Uprights into the Jump Bases

Step 5: Using the Coupler join the two 24" pipes to make the Jump Bar

Step 6: Attach the Jump Cups and slide to the desired height
